

Racism in Britain...Genocide in Palestine

Our message to racists has always been clear:

They Shall Not Pass.

We have all been appalled by a tragic murder of three girls in Southport, but even more by the reaction.

Disinformation that the killer was a Muslim led mobs of fascist thugs to attack mosques, loot shops, set fire to a library and threaten the lives of refugees.

These horrors have not come out of nowhere. The steady flow of racist rhetoric from politicians like Farage, Jenrick and others has helped to create a climate of fear and hatred.

Why do the broadcasters host the advocates of racial division? They blame refugees and black people in general for poverty and inequality - quite wrongly. Fortunately most of us have more sense and will have no truck with the racists. We want our representatives to call out the real culprits.

Liverpool: over 1,000 defend the Asylum Link centre, 7 August

GETTING AWAY WITH MURDER

What encourages racists across the world is that Israel has been able to disregard the entire apparatus of international law:

- ▶ *Geneva Conventions* outlaw lengthy occupation of land and the creation of settler colonies - **IGNORED**
- ▶ *The Genocide Convention* outlaws the deliberate killing of any group of people - **IGNORED**
- ▶ *The International Court of Justice* has directed Israel to stop genocide in Gaza - **IGNORED**
- ▶ *The International Criminal Court* chief prosecutor wants arrest warrants against Israeli leaders - **OBSTRUCTED**
- ▶ *The UN Security Council* orders a ceasefire - **IGNORED**

The Israeli government has the protection of the US, Britain and Germany. We campaign to change that.

ISRAEL - A RACIST STATE

Israel is not directing British racists, but it serves as a role model. The state was set up with the aim of displacing Palestinians with as much force as was necessary and the last 76 years have seen a series of massacres and annexations. Palestinians have become either refugees abroad or second-class citizens in their own country.
