

No Peace Without Justice

THE BAD NEWS – SHORT TERM....

There are any number of excuses for Israel to resume the genocide, if Trump allows:

** Hamas are unlikely to find all the bodies of dead Israeli hostages, who were killed by Israeli bombs and lie under the rubble along with thousands of Palestinians,

** It is quite unrealistic to expect Hamas to disarm given the threat of continued warfare. Trump has agreed that Hamas can clear out the Israel-sponsored gangsters, but what then?

THE BAD NEWS – LONG TERM....

The full Trump 20-point plan is dire:

** Israel will still control Gaza's borders and can at any time reimpose its 18-year siege.

** The Israeli army still occupies half of Gaza and is still shooting at Palestinians. The timetable for full withdrawal is vague. Israelis are poised to create illegal settlements in Northern Gaza if given the chance.

** Around 10,000 Palestinians (inc 400 children) will remain in Israeli jails, many without trial.

** Gaza's 'technocratic' government is to be overseen by Trump himself chairing a 'Board of Peace'. A Palestinian state is but an 'aspiration'.

** The creation of a 'special economic zone' leaves Palestinians no better off than under the colonial mandate given to Britain after WW1.

A proper peace plan must give Palestinians the right to decide their future in Gaza and in all of Palestine. The genocide and ethnic cleansing must stop.

The illegal occupation of Palestinian Territories, including the siege of Gaza, began long before 7th October 2023. Under international law, an occupied people have the right to resist the occupation, including by the use of force. Targeted attacks on civilians (by both Palestinian and Israeli forces on 7th October) are forbidden, but nothing that happened on 7th October justifies Israel's continued genocide of the Palestinians.
